Dear Co-op managers and Coalition Representatives,

A Coalition member cooperative needs your help in finding a good painting contractor. Can you help? Here is their question:

Our coop is interested in hiring a contractor to paint the interior of our building. Our building is 6 floors, 45 units with an elevator. Do other coops have painters that they highly recommend using? If so, can you please share the name of the contractor along with how long your painting project took and the approximate cost?

Please respond by Friday, June 29. We will compile and share the results with everyone a few days later. Thanks, again, for helping one another!
